Seen & Heard Around Murray

Congratulations to a Murray
Miss who has done well for
herself. Miss Barbara Brown,
through hard work and dedica-
tion, has carved a niche for her-
self as one of the top major-
ettes to come from the city
school system.

A majorie all through her
career at Murray High, Bar-
bara continued her work and
today is head majorie at
Murray State University. She
has grown into a poised, grace-
ful young lady who has gained
a good academic background
for her chosen field.

The opportunities are here for
boys and girls. What they do
with them is up to the individ-
ual.

British Journalist Henry Vol-
lam Morton once said: "One
drink of wine and you act like
a monkey, two drinks and you
strut like a peacock, three
drinks and you roar like a lion,
and four drinks, you behave
like a pig."

One lone Brown Eyed Susan in
the yard. We have mowed over
it all year long and apparently
it came into its own during the
dry spell. It grew and flower-
ed. We figured if it wanted to
flower that bad, we would
leave it, so now we just mow
around it.

Huge toadstools in the yard,
some of them six inches across.
Some are mounded over like a
big blob of melting ice cream,
and others are real spiffy,
standing on a long stem topped
by a little cup.

Cricket in the kitchen this
morning. He just chirped away.
Some folks don't like crickets,
but we like to hear them.

Tiny Humming Bird came in
an abrupt halt this morning in
front of the window. We sat
there and watched him. His tail
seemed to be flexible and he
sort of waved it up and down.
Probably has to do with his
aerodynamic ability to fly in
most any direction.

Dr. Hogancamp & Dr. Ryan Serve On State Study Group

Dr. Thomas B. Hogancamp
and Dr. William J. Ryan of
Murray State University are
serving on Gov. Louie B.
Nunn's Efficiency Task Force,
which has been studying gov-
ernment operations since Janu-
ary and released several pre-
liminary reports this past week-
end.

The study group, headed by
Dr. George Miller, an Eastern
Kentucky University professor,
has in previous reports been
described variously as having
from 70 to 100 members. The
list released this past weekend
contained 137 names.

Gov. Nunn on one occasion
indicated that the names would
not be known until after its
reports had been submitted.

Reports submitted thus far
include calls for a more cen-
tralized accounting system and
better use of the state's com-
puters. It also predicted that
savings brought about by task
force studies might result in a
tax cut next year.

Hiram Tucker Pays Tribute To Organizations For Act

Hiram Tucker, Murray busi-
nessman, today paid tribute to
the clubs and organizations of
Murray and Calloway County
for their sponsorship of the Ap-
preciation Dinner for President
Emeritus Ralph H. Woods and
Mrs. Woods.

"Although illness prevented
me from attending the ban-
quet, I have heard from many
sources that the banquet was
an outstanding success," Mr.
Tucker said.

In attendance at the dinner
on September 12 were approxi-
mately two hundred represen-
tatives of fifteen clubs and or-
ganizations of Murray and Cal-
loway County. Mr. Tucker was
originator of the idea of a spe-
cial banquet for Dr. Woods, who
had served 23 years as Presi-
dent of Murray State Univer-
sity. Mr. Tucker said that he
regarded the cooperation of the
various clubs as further evi-
dence of the fine spirit that pre-
vails in this community.

"The citizens of Murray and
Calloway County were respon-
sible for raising one hundred
thousand dollars to establish
Murray State Normal School in
our community," Mr. Tucker
explained. "I therefore was not
surprised when the various club
presidents enthusiastically sup-
ported the idea of paying trib-
ute to Dr. and Mrs. Woods."

He said that through the
years Murray and Calloway
County had cooperated in
working for the Kentucky Dam,
the Land Between the Lakes,
new industries and many pro-
jects of a similar nature.

At the appreciation banquet
Dr. Woods was presented with
a rod and reel and a fishing
equipment. Mrs. Woods was
given a set of crystal. Dr. and
Mrs. Woods expressed their
heart felt thanks for the gift
and expressions of appreciation
they received from the citizen-
ry of Murray and Calloway
County. "It was a great even-
ing for us, one we shall long
remember," Dr. Woods stated.

Clubs and representatives
who presented special resolu-
tions and messages of tribute
were as follows: American As-
sociation of University Women,
Mrs. Charles Porter, President;

Business and Professional Women's Club, Mrs. Madelle Tal- ent, Secretary; Murray Wo- man's Club, Mrs. Don Keller, President; Thorobred Club, Cal- Luther, Athletic Director; Op- timist Club, Paul Dailey, Presi- dent; Murray Civitan Club, J. H. Nix, Ky. District Member- ship Chairman; Calloway Coun- ty Farm Bureau, Noble H. Cox, Vice President; Masonic Order, Ralph Morris, Master of the Lodge; Kiwanis, Josiah Darnall, member of board; Chamber of Commerce, R. E. Moyer, Presi- dent; Rotary International, Don- ald Tucker, President; Ameri- can Legion, Cleo Sykes, adjut- ant; Murray Moose Lodge No. 2011, George Hodge, Governor; Murray Jaycees, John Young- erman, President; Lions Club, Cody Caldwell, President.

Mrs. Wrather Leads Study For Area

Mrs. Barletta Wrather of
Murray, area agent in home
management and also agent ad-
visor to issues and concern and
cultural development, is in
charge of three study lessons
being taught to the leaders of
homemakers clubs in the Pur-

Mrs. Wrather said 110 clubs
in the area will be receiving
the lesson with over 1700 wo-
men involved to endeavor to
teach the public the import-
ance of safety and to try to cut
the accident rate. She has done
considerable research and pre-
pared charts for the lesson pre-
sentation.

Assisting Mrs. Wrather in the
presentation of the lessons on
"Old Masters in Art" will be
Mrs. C. E. Hall of McCracken
County, and on "The Use of the
Dictionary" will be Mrs. O. C.
Markham, retired English teacher
of Murray State University.

Mrs. Hall is teaching her
lesson in Graves county today

citizenship as well as the les-
sons on food, clothing, etc.

Mrs. Wrather will be in Lex-

special training in the issues
and concern and cultural de-
velopment in order to be able
to present these lessons to the
leaders of the county and area
to give a well rounded program

homemakers.

Any other interested persons

"The Outstanding Civic Asset of a Community is the Integrity of Its Newspaper"

TUESDAY — SEPTEMBER 24, 1968

BACKWARD STEP

THE announcement over the weekend to disband the United Fund effort comes as sad news and marks a step backward in the city of Murray and Calloway County.

We know of no one who looks forward to the renewal of the boring round of drives which plagued Murray merchants for so many years.

The United Fund in Murray will work. It will work in spite of the fact that certain drives do not wish to cooperate and participate in it.

If we were to point at one single weakness in the United Fund, we would say that it would be in the area of setting up the annual budget.

We cannot justly criticize those on the budget committee, especially since they serve without pay and perform this service as a community contribution. But we can say that this part of the United Fund is the weakest link.

Hardly any effort is made to investigate the budget of the various agencies as submitted. They are merely accepted. Even when one agency increased its budget request by 100 per cent it was not questioned.

We would say that this one agency request was the "straw that broke the camel's back". The United Fund was raising approximately \$26,000 without too much effort, but over \$36,000 was just too much.

What the Murray-Calloway County United Fund needs is a "hard-nosed budget committee", one that is realistic.

Many good reasons can be given for increasing an agency budget 100 per cent, but from a realistic standpoint, it just is not feasible. We spoke against this increase three years ago and it was an unpopular stand.

Efforts were made to raise the American Red Cross budget by less than ten per cent and these efforts failed. The local Red Cross chapter needed more money because there is a full scale war going on with 300 to 500 American boys being killed each week and the primary purpose of the American Red Cross is to aid and assist the American service man and his family.

We for one regret deeply that the United Fund is being cancelled. We feel that it might be reinstated in the future, is idealistic thinking.

Our belief is that if something is worth anything, it should be supported through thick and thin.

With ten to twelve drives in the county each year, there must be ten to twelve separate campaigns, ten to twelve groups of solicitors, ten to twelve separate campaigns, ten to twelve separate contributions asked.

The United Fund is the answer to the harassed merchant and the often solicited business man who bears the lions share of any financial campaign.

Let us make it clear that we cast no reflections on any agency or any person. After all the United Fund is a community effort for community agencies. The United Fund represents a method by which the various agencies are supported, as they should be, which "spreads out" the load on the individual and makes it possible to get the largest number of people in the field with a single purpose.

United Fund solicitors are able to face business men, home owners, and industry with the clear understanding that the solicitation is the only one that will be made, that the business man will be called on no more by the United Fund for the rest of the year and that all participating agencies will receive a fair share. The business man could make his contribution with a clear conscience, with the explanation "I give to the United Fund".

We regret sincerely that those in charge saw fit to disband the U.F. We feel it would have been better to reduce appropriations of some agencies and keep the United Fund, rather than to discard it altogether.

At the best however, we can see how this thinking could be arrived at. Any phase of the United Fund is difficult, from the president of the organization to the solicitor. We can only say that doing away with the U.F. is a backward step.

Bible Thought for Today

Let not mercy and truth forsake thee: bind them about thy neck; write them upon the table of thine heart. —Proverbs 3:3.
Truth is always beautiful and mercy becomes those who are strong.

ALMANAC

by United Press International

Today is Tuesday, Sept. 24, the 266th day of 1968 with 98 to follow.

The moon is between its new phase and first quarter.

The morning star is Mars.

The evening star is Saturn and Venus.

On this day in history:

In 1869, the "Black Friday" panic hit Wall Street as a result of an attempt by financiers Jay Gould and James Fisk to corner the gold market.

In 1934, Babe Ruth made his last appearance as a regular player with the New York Yankees.

In 1955, President Eisenhower suffered a heart attack while vacationing in Denver, Colo.

In 1959, President Eisenhower and Soviet Premier Khrushchev met at Camp David, Md.

A thought for the day — President Eisenhower once said: "In the final choice a soldier's pack is not so heavy a burden as a prisoner's chain."

Dear Abby

Very Generous with Her Rube

By Abigail Van Buren

DEAR ABBY: First let me explain that I am 46 years old and my husband, Rube, is 52. I have a dear friend about my age who lost her husband 4 years ago, and she's had a bad case of nerves ever since. She told me that her doctor told her that all she needed was a man.

Now I hope you won't think I'm a terrible person, Abby, but when my friend kind of hinted around that she would like to borrow my Rube once in a while to quiet her nerves, I really didn't see anything so wrong with it.

To tell you the truth, I never was very affectionate, and I always felt like Rube got cheated in that department somewhat.

No one would have to know. Do you think I'm crazy?

RUBE'S WIFE

DEAR WIFE: I don't know whether you're "crazy" or not, but I do think your generosity is unbelievable. Perhaps, you'd better consult Rube. You could be playing a dangerous game. If Rube is going to be "lent out" for therapeutic purposes, maybe he knows some other needy cases of "nerves" that need "quieting."

DEAR ABBY: Our 17-year-old daughter has been asked to go with a 35-year-old father and his children, ages 8 and 11, to the state fair for several days. The wife is unable to go. My daughter would look after the children while the father attended to fair business. They would all four sleep nights in a camper in one small room.

I feel that this is not at all proper. My daughter and husband think I am completely wrong. I am not saying that the man is not nice or anything like that. I just feel for the sake of common decency my daughter shouldn't agree to such sleeping arrangements. I would appreciate your views.

HER MOTHER

DEAR MOTHER: I vote with you.

DEAR ABBY: We have a beautiful home, financial security, good kids, and a good social life. "So, what's the problem?" you ask.

We also have a "fatso" at the head of our house. How can we make him understand that women like their men strong and lean—not soft and fat?

My man doesn't do a lick of work around the house, and his job permits him to sit down most of the time. He goes to a gym occasionally, but comes home and eats everything in sight. I either hide the goodies or don't buy them, but he manages to keep his belly loaded.

His clothes wear out too fast. He looks 15 years older than he is, and I am not interested in his insurance money.

Frankly, he is getting unbearable. Please print this, Abby, to help fat men realize that they are losing their lives before they die by being so weak, lazy, and goggle.

WEARING THIN

CONFIDENTIAL TO TERRY: Don't go for a "now or never" kind of proposal. Insist on time in which to think it over. If he isn't willing to wait, it's a good bet that the marriage should never take place. Or would you rather be a divorcee at age 20?

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Cal. 90069 and enclose a stamped, self-addressed envelope.

FOR ABBY'S BOOKLET, "HOW TO HAVE A LOVELY WEDDING," SEND \$1.00 TO ABBY, BOX 69700, LOS ANGELES, CAL. 90069.

For Fern Fanciers

FLAMINGO, Fla. (UPI) — More than 50 species of ferns grow in Everglades National Park and vacationers heading for the Flamingo recreational complex can easily find at least three of them. The leather fern is the largest in the country, growing to 12 feet high. The abundant sword fern flourishes on mossy tree branches as well as stumps and logs. The resurrection fern is called the poor man's hydrometer because rain makes its leafless curled brown leaves quickly expand and turn a fresh green.

Profitable Parks

CONCORD, N. H. (UPI) — New Hampshire's 32 state parks were visited last year by an estimated 3,442,946 persons. Massachusetts had the nation's first tax for free schools. Michigan borders on four of the five Great Lakes. Minnesota produces more than half the U.S. domestic iron ore.

A First
SAN ANTONIO, Tex. (UPI) — The Marquis de Lafayette's famous farewell address to the United States is on public display for the first time in history at San Antonio's HemisFair '68. The manuscript was written in 1825 by the French hero of the American revolution. Gov. John Connally obtained the loan of the price-

less document from Count Renee de Chambrun, a descendant of Lafayette, and it is on display at the \$10 million Institute of Texan Cultures for the duration of the World's Fair.

Famed 'Strip' Has Bad Case of Hippieitis

LOS ANGELES (UPI)—The famed Sunset Strip, once the gala night life center for the movie stars, has virtually been taken over by the hippies after dark.

As a result property values have plummeted, retail sales have dropped 30 per cent, police costs have increased more than 100 per cent and the county is losing millions each year in tax revenue.

The inroads of the hippies and other young persons began in 1965. Since that time arrests have increased 250 to 500 per cent. A large number of these are for violations of which 87 per cent involve persons 17 to 24 years of age.

A financial institution estimates its properties in the area have gone down \$500,000 in value.

Businessmen on the strip blame court decisions regarding the laws as making enforcement almost impossible. Carl Victor, president of the West Hollywood Realty Board, said:

"We learned that as long as a hippie is not blocking the sidewalk—that is, if you can walk over him or around him—he is within the law."

The owner of one building was best up inside it by a hippie and nothing could be done."

Sheriff's Capt. G. E. Scholten says in recent months the type of hippie on the strip has changed.

"There's an increase in hard core roughnecks," he says, "and an increase in the more serious crimes."

Hospitals Eying Disposable Rooms

PITTSBURGH (UPI)—A Pittsburgh hospital purchasing agent predicts that "disposable" hospital rooms will protect the patient from catching something worse than he had when admitted.

George Pettinagill, of West Penn Hospital, predicted that new rooms, a by-product of the nation's space program, will be in use within five years.

The rooms would be placed within regular hospital rooms and inflated until they reach walls, ceiling, and floor to form a disease-resistant lining for the room.

After a patient is sent home, the furniture from the room would be removed into sterilizers for thorough and prompt purification and the "room" itself would be burned.

The next occupant of the room would thus be completely protected from any lingering bacteria.

Cut Rates

NEW YORK (UPI)—Seventeen deluxe and first class hotels in Paris have pledged not to raise prices for accommodations through next March 31, a spokesman told an American press lunch recently. He also said hotel owners throughout France plan off-season price reductions between November and March as other special discounts and inducements for high-season vacationists.

Small family farms needing additional income have an opportunity to earn good income by producing dark tobacco.

They are no longer to small

Small Farms With Low Income Should Grow Dark Tobacco For Good Cash Crop

Harvesting dark-fired tobacco on the James A. Toon farm in Graves County September 7. From left to right: Ruth, Delbert, Jo Ann, Mr. Toon, Pauline, Margaret, Mrs. Toon, Linda and Millard Cissell (an uncle Carol, not in the picture, was nursing at a local hospital. Two of the daughters are in college this semester. The Toon farm consists of 102 acres of upland. Approximately 12 acres of dark tobacco are grown, and a herd of 28 dairy cows milked for manufactured market. The gross income from the tobacco crop is estimated at between ten and eleven thousand dollars. The other pictures show the Toon family hanging tobacco and a field of dark tobacco partially cut and scaffolded.

The Purchase Area is growing approximately 4,000 acres of dark tobacco, but an additional 2,000 acres of allotments are not grown. These allotments may be sold or leased. A farmer may grow up to ten acres each of dark - fired and air-cured tobacco by leasing and/or buying allotments provided the acreage does not exceed 50 percent of his cropland.

Small family farms needing additional income have an opportunity to earn good income by producing dark tobacco. They are no longer to small

bases since the ASCS permits leasing and buying.

Tobacco production schools will be held in counties if there is an interest among new growers. Contact W. R. Hoover, Area Extension Agent — Tobacco, Mayfield, Kentucky.

ufacture of some new type of equipment, or machine, or action.

Now comes a new punctuation mark called the "interrobang". This new mark is used where a person says "Really?" or "Really!" In printer's terms the exclamation point is called a "bang" and the question mark naturally indicates a question has been asked. When you question some one, you interrobang them. By putting the "bang" and the "interro" together you get "interrobang".

The new Remington Model 25 Electric typewriters have the interrobang availability or in other words you can get the interrobang on this typewriter if you want it.

The interrobang is a combination of the question mark and the exclamation point.

In an article in the Publisher's Auxiliary, trade newspaper, it points out that some folks say Columbus shouted "Land Ho!" while others say he shouted "Land Ho!". If they had the interrobang at that time he could have used it effectively.

Vaccinations

WASHINGTON (UPI)—Vaccination against smallpox since Jan. 1 is now required of all persons arriving at the Lumbumbushi (formerly Elizabethville) airport in the Congo, the U.S. Dept. of Health, Education and Welfare reports. The agency also recommends anti-polio vaccinations for all Americans traveling to Turkey because of an increase in poliomyelitis cases this year.

Plenty of Duck

PORT-AU-PRINCE, Haiti (UPI)—The widest variety of wild ducks in the West Indies is found in the Saumatre, Miragoane and Les Eaux Claires lakes region of Haiti. Wild pigeon, guinea hen, quail and dove also abound in the same area.
